FLOWERS TODAY are in celebration of 54 wonderful years of marriage. God has truly blessed us and we have learned to love Him and each other more and more each year. Sharon & Harold King.

BOWMAN HILLS SCHOOL CLASSROOM CONNECTION We have been learning about relationships - between God and us, between us and other people and between different animals. We have learned that God made many kinds of animals to live in mutualistic symbiotic relationships. For example, anemone protects clownfish and clownfish feed anemone. We should learn from the animals and look for ways to help those around us.
